Re: Landshire New Food Production Facility Project – Caseyville, IL

To Whom It May Concern:

Please accept this letter as Musick Construction's recommendation for Panels Plus, Inc., based on their performance on our recently-completed Landshire project.

In addition to constructing the 13,000 square foot cooler, Panels Plus participated in the design phase by providing advice and details that were ultimately incorporated into the final construction drawings. Throughout the project, they kept us very informed and current on their status. Furthermore, they followed the project meetings closely, quickly addressing all pertinent items published in the weekly meeting minutes. All deliverables were received in a timely manner and, despite multiple changes, their work was completed within the project schedule.

Panels Plus' performance on the Landshire project was exemplary. I highly recommend Panels Plus and I look forward to my next opportunity to work with them.

Sincerely,

A handwritten signature in black ink that reads "Scott Borman". The signature is written in a cursive, flowing style.
